

Instructions for label printing for ETI suppliers and subcontractors

For smooth operation of the portal, the use of the Google Chrome web browser is recommended.

Portal link: <https://lnnet.eti.si/supplierPrint/#/login?tid=etib2b&cid=110&interactive=0>

The username and password are assigned to you by ETI and are linked exclusively to the name of your company, which is printed on the label after login. In the login window, enter the received username and password. In the dropdown menu on the left, you can select the interface language - Slovenian or English.

After logging in a window will open containing input fields that need to be filled out. On the right side of the window is a preview of the label. All entered data changes synchronously in the preview.

1. In the search string, enter the full or partial ETI article code and select search.
2. From the search results, select the correct ETI code.
3. Enter the quantity in the packaging on which the label will be placed.
4. Enter the purchase order number.
5. Enter the LOT (LOT is a set of characters for traceability).
6. Select the LOT date.
7. Enter design revision of part (information on ETI drawing).
8. Select the printing option (ETI 7x7 – single label; ETI A4 – print 12 labels on A4 format).
9. Print.
